Roadmap highlights – 2024 and beyond

Transforming the consumer-packaged goods industry with end-to-end Product Lifecycle Management and Compliance solutions

Smart Product Development

Advanced usage

Usability

➤ Advanced Formulation Suite

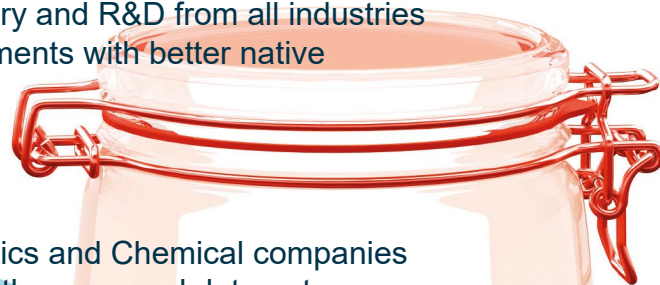

Devex 2024

- **UI localization** . For the Product Development team, our formulation tools will all be in the native language of the users
- **Search improvements** . Help formulators when searching for ingredients, by allowing them to continue searching and selecting items without closing the search dialog.
- **Requirements Driven Formulation** . Support Marketing, QA, Regulatory and R&D from all industries (F&B, Cosmetics, Chemicals) in defining new types of product requirements with better native integration of regulatory compliance.

➤ Ingredients scouting

Devex 2024

- **Cosmetic Ingredients Database** . Help Product Developers of Cosmetics and Chemical companies to scout for new ingredients and test them in trial formulas faster and with no manual data entry

Regulatory data expansion

Regulation

Engagement

➤ Cosmetics

Devex 2024

- Regulatory limits for US and China
- Toxicological data for PIF and SDS generation

➤ Chemicals

Devex 2024

- Transport calculation updates
- Distribute the CLP classification data (GHS classification, IUPAC names, Registration numbers) of substances extracted from ECHA REACH registration dossiers
- WGK data extraction to support the calculation of the WGK classification of a mixture
- Distribution of MAL - Factor, F-Factor and Number - After-Hyphen for substances according to MAL regulation to support the calculation of the Danish MAL -Code of a mixture

➤ Food & Beverages

CC 2023 Q4

CC 2024

- News Monitoring System and Law Library expansion
 - US state to state
 - EU national legislations
 - Central America national legislation

Packaging and Product Management

New solution

Usability

➤ Packaging Development

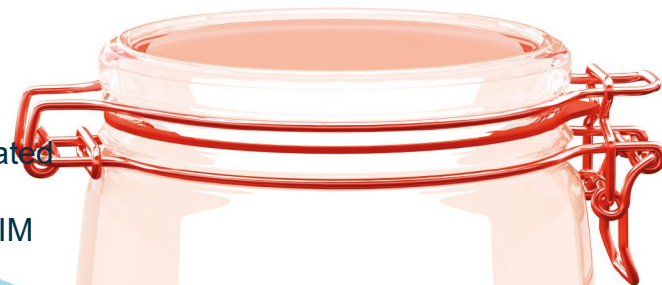

Devex 2024

- **Management of Experimental Packaging.** Support package engineers and designers with the next generation of packaging development workflows and tools. From package brief to trial packages, proofing and approvals.
- **Artwork Proofing and Comparison.** Leverage new artwork management tools to provide next level user experience for artwork and package designers

➤ Collection management (Cosmetics)

Devex 2024

- **Product Catalog management for the Cosmetic Brands.** Support brands' R&D users to continuously update their product catalog. Automated workflows that help to keep up with ever changing market trends and consumer demands. Out -of-the-box integration with market leading PIM systems to support Direct -To-Consumer business models

Improved collaboration

Advanced usage

Usability

➤ Supplier Quality Management

Devex 2024

Devex 2025

- **Action Management (SCARs).** Allow QA to submit formal requests to suppliers to correct non-conformity issues and provide detailed action plan.
- **COA management.** Support QA with fully fledged workflows and tools for management of Certificates of Analysis.

➤ Customer Collaboration

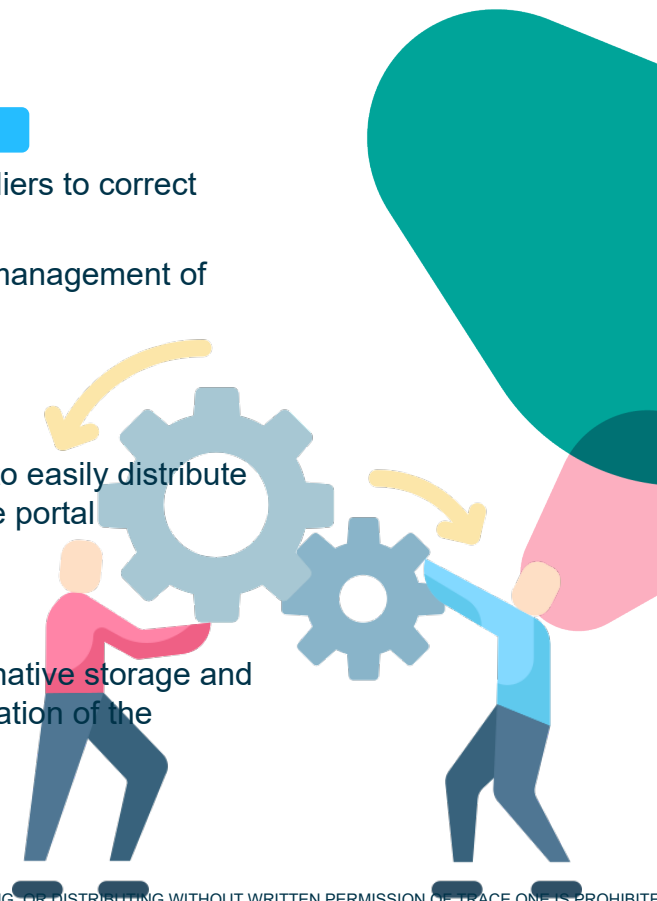

Devex 2025

- **New Document Distribution Portal.** Support Sales & Account Managers to easily distribute product documentation to your customers with an easy -to-use self-serve portal

➤ SDS Management

Devex 2024

- **Suppliers SDS Management.** Support R&D and EHS users with dedicated native storage and registration of suppliers' SDSs information. Support and speed up the registration of the Supplier's formulation in the system

Power to the users

Configurability

Engagement

➤ Users defined configurations

Devex 2024

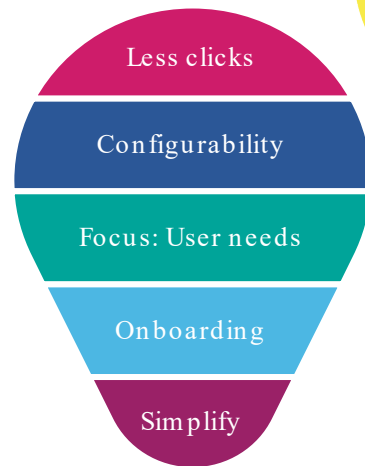

- **Report Configurator improvements.** End users will be able to selectively choose what to print in Material and Specification Navigator and standard templates would be generated on the fly
- **Dashboard configuration.** Leverage Insight's easy to configure dashboards for all your analytics needs

➤ Support for mobile devices

Devex 2024

Devex 2025

- **Mobile approvals.** Perform all your approval tasks on - the - go using our new mobile app
- **On - site suppliers audit.** Allow QA personnel to collect all required data while on - site: take pictures, scan documents, fill out forms all on mobile devices.

Unlocking the power of AI and Data Science

Configurability

Engagement

➤ Artificial Intelligence

Devex 2024

Devex 2025

- **Documents digitization.** Dramatically speed -up data gathering from suppliers by automatically translating PDF based documents (e.g. SDS, TDS, CoA) into structured data with high level of accuracy
- **AI-Powered Searches.** Help users to find what they need a using natural language inside a user-friendly chat
- **Ingredients suggestions.** Simplify R&D work with AI powered recommendation of the most economic and best performing ingredients combinations matching your product requirements

➤ Data Science

Devex 2024

Devex 2025

- **Business Intelligence for Product Growth.** Help the Business to identify market trends and find existing products that already match the market needs
- **Projects Optimization Analytics.** Support Program and Project Managers in determining pro -active actions to remove bottle necks in projects execution
- **Supply Chain Risk assessment.** Allow QA to proactively identify quality and compliance risks across the entire supply chain. Monitor expiration of documents like GFSI, ISO, Kosher, Halal certificates. Highlight regulation changes and impact on suppliers.
