Compliance Solutions for Paint, Ink and Coatings

Selerant's software solutions dedicated to Environment, Health and Safety industries (EHS) help you to manage the complete chemical product lifecycle, **from idea to label**.
With global presence Selerant ensures multilanguage technical and regulatory support.

Our tailor-made solutions for formula-based industries help you to manage:

- New product development
- Formulation management
- Safety Data Sheets and labeling creation
- Hazardous substances transport HSM
- Compliance with EHS regulation

Safety Data Sheets and labeling creation

Modular and configurable, the Hazex software permits to match the legislation complexity with linear and intuitive software solutions, by simplifying and optimizing danger evaluation activities and the Safety Data Sheets creation.

Business benefits:

- **Reduce time** spent to confirm data accuracy
- **Improve quality** and reliability
- **Ensure compliance** on critical legislative requirements like GHS
- **Speed up product launch**
- **Stay updated** on required template changes for compliance documentation

Safety Data Sheets and labeling creation

SDS distribution

ERP integration

PAINT

- ★ Excellent hiding power
- ★ Low odour
- ★ Easy to apply
- ★ Resistance to color fading
- ★ Antibacterial

56 to 17 m². per litre

5 litres

1 create.

from introducing a new formula-based product to gaining market share, to keeping pace with competitors, you can quickly create what your customers want to buy.

2 comply.

from idea to label, you are given the capability to comply with complex regulations that may differ from region to region and country to country.

3 connect.

connect and collaborate throughout the entire process with your internal team, suppliers and co-manufacturers, and ultimately connect with your customers on shelf.

SDS Compliance Software

- UN GHS
- USA GHS
- CLP and REACH

- South Korea GHS
- Malaysia GHS
- Singapore GHS
- Australia GHS
- Japan GHS
- Vietnam GHS
- New Zealand GHS
- Thailand GHS
- Indonesia GHS
- Philippines GHS
- South Africa GHS
- Argentina GHS
- ADR - IMDG - IATA
- Country-specific Transport Regulations (DOT - TDG - ADG - ANTT)
- Poison Centres Management (ISS − Synapse − Etc.)
- UFI generation and management
- EU PCN Notification
- VOC management
- Detergents
- German WGK regulation management
- SDS translations available in more than 30 languages
- Datasheet management

SDS Distributions and Export

- SDS batch generation
- E-mail documents forwarding
- SDS export

Hazard Labeling

- Hazard label layout creation
- Automatic printing from ERP
- GHS Danger labels
- Hazard label Automation
- Linear barcode
- QR Code , Data Matrix, other 2D barcode
- RFID printing

Cosmetic

- Cosmetic allergens
- PIF management and creation
- Cosmetic calculation according to Reg. 1223/2009

Data Exchange

- Data exchange from/to ERP
- ERP management Interface with Selerant systems

Exposure Scenarios

- Generation of exposure scenarios
- Compatibility with ESCOM model
- Exposure scenarios attachment tool

IFRA analysis

- IFRA restrictions
- Certificates
